

## DECIBEL PINOT NOIR ROSÉ 2022

# DECIBEL

### Winemakers Notes:

Hawke's Bay lies on the East Coast of the North Island of New Zealand. The region enjoys dry summers with moderate, cool nights. This wine reflects a single vineyard Rosé which was grown inland on the elevated terraces of the Crownthorpe sub-region of Hawke's Bay. This appellation enjoys long, strong sunlight hours but is slightly cooler than the coastal plains of Hawke's Bay, making it most suitable for growing Pinot Noir for Rosé.

The juice was settled and fermented in stainless steel tanks using organic nutrient and a certified organic yeast strain, assisting with the long, cool fermentation. This helped maintain great aromatics and a freshness in the wine. The wine was then cold settled and stabilized before bottling under screw-cap to maintain the bright fruit and aromatics gained from the young New Zealand soils and phenomenal UV light.

### Tasting Notes:

Made from sustainably grown Pinot Noir, this is a winner for afternoons in the sun with aromas of orange blossom, crushed wild thyme, and ripe berries. A seamless transition to the palate with a slightly chalky texture, the tang of a fresh raspberry, and a long mineral finish. You can't go wrong with this moreish number.

All our wines are suitable for vegans and certified sustainable.
