MARGARET RIVER

1000 CROWNS

CABERNET SAUVIGNON

ANTHONY
ALLPORT
WINE

COLOUR

Medium dark red colour with purple hints.

NOSE

Rich, violets, blue fruit aromas, milk chocolate and cedar spice.

PALATE

An elegant and structured palate with lovely blue fruits with violet brightness. Rich graphite acid line with a moorish oak tannin drive brings mid palate density. Fruit vibrancy and dry herb prettiness pushes through the palate for a plush salivating finish.

WINEMAKING

A blend of two unique parcels of Cabernet Sauvignon grown at Credaro. Both batches come from our high-density planting Cabernet Sauvignon! Houghton Clone adds an elegance and true Margaret River characters, whilst Clone 337 adds brightness and density. Both wines were put to barrel for MLF and were raked periodically during their 16-month maturation period. The oak is 100% French, of which 40% were new. Minimal intervention to the wine post blending allows the true characteristics of Margaret River Cabernet to shine through.

VINTAGE NOTES

We enjoyed an early start to the season in January, with warmer than average spring temperatures evolving into the perfect summer growing conditions. A dry growing season lead into lower-than-average yields, but this has resulted in exceptional fruit that shows divine concentration of aromas and flavours. A lovely Marri Blossom kept the birds at bay, leaving the fruit in exceptional condition to be picked at its optimum.
